BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Snow Shoe Twp. Centre

2. How did you learn about the meeting tonight?

Church Bulletin

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

The information was very well presented, by Tom Johnston. We are opposed to the railroad going through our area because of the impact it would have on the recreational value of the land. The quietness and solitude of the woods creates a wonderful environment for camping and hunting which is also a help to our local economy. The Rails to Trails offers another form of recreation that is needed in our area.

There is so much historical value in Pelee. Coming from a quiet, rural area, we value our land and oppose the railroad for the above reasons.

4. What additional comments about the proposed rail reactivation would you like to add?

We would like to have a public hearing on a weekend.

Thank you.
